SUMMARY

Aspiring Full Stack Developer with foundational skills in the MERN stack, eager to leverage technical knowledge in web development. Completed comprehensive projects utilizing MongoDB, Express.js, React, and Node.js to create robust applications. Seeking to contribute to a dynamic development team to drive successful project outcomes and enhance user experiences through innovative solutions.

EXPERIENCE

- Developed a MERN platform with user authentication (JWT), protected routes, admin dashboard, and role-based access control, Zod validation.
- Implemented Admin Panel features: update/delete users, delete contact messages, and service display management (from mongodb atlas).
- Deployed backend on Render and frontend on Vercel with CORS protection, environment variables.

PROJECT

DevAsh Services Portal (MERN Stack)

devash-services.vercel.app/ · October 2025 - November 2025

- Developed a MERN platform with user authentication (JWT), protected routes, admin dashboard, and role-based access control, Zod validation.
- Implemented Admin Panel features: update/delete users, delete contact messages, and service display management (from mongodb atlas).
- Deployed backend on Render and frontend on Vercel with CORS protection, environment variables.

Emoji Game

my-emoji-game.vercel.app/

- Built an interactive Emoji Memory Game using React.js with modular, component-based architecture.
- Implemented state management, props, and event handling to track scores and manage game logic.
- Designed a responsive UI with dynamic emoji shuffling to enhance user engagement.

To-Do App

todo-app-ashwa.vercel.app/

- Developed a task management application with full CRUD functionality and persistent storage.
- HTML, CSS, JS, Bootstrap
- Built using JavaScript event listeners for smooth task handling.
- Ensured task persistence with local storage for reliable user experience.

EDUCATION

B.Sc, (Computer Science)

Karnatak University · Dharwad · 2024 · 7.83/10

Senior Secondary(XII)

Jawahar Navodaya Vidyalaya, UK · Uttarakannada · 2020 · 85%

SKILLS

JavaScript (ES6+), React.js, Node.js, Express.js, MongoDB / SQLite, RESTful APIs

Git,Postman

Problem-Solving, Debugging, Teamwork & Collaboration, Adaptability
